WORK EXPERIENCE

REVEMOTO, LLC (*Remote: Houston, TX 77041*)

SEO Specialist

October 2021 - January 2024

- Spearheaded SEO strategy and content optimization, resulting in a 10% increase in total organic traffic in 2022 versus 2021.
- Migrated the company's e-commerce website from Shopify 1.0 to Shopify 2.0, resulting in faster site speed, improved functionality, and easier management.
- Developed and implemented custom code solutions on the website to bridge functionality gaps and enhance user experience.
- Conducted keyword research and site audits to optimize website content and performance.
- Collaborated with stakeholders, including the Products Team to ensure SEO best practices were implemented across product listings and content creation.
- Researched, tested, and managed third-party apps to enhance functionality, improve user experience, and optimize store performance.

Digital Marketing Analyst

October 2020 - September 2021

- Analyzed analytics data to assess digital marketing effectiveness using tools such as Google Analytics, Google Search Console and SEMRUSH.
- Created performance reports, tracked organic traffic, conversions, and engagement metrics.
- Provided insights to marketing & sales teams to optimize ad campaigns and improve ROI.
- Collaborated with developers and content teams to implement on-page & technical SEO improvements.

E-Commerce Virtual Assistant

October 2018 - September 2020

- Managed product listings for auto body parts by researching, uploading, and optimizing items on Shopify, ensuring accuracy and completeness.
- Sourced product specifications from vendor websites to provide detailed and informative listings for auto body parts.
- Enhanced product images to improve storefront appeal and customer engagement.

PRONATURAL FEED CORPORATION (*Cagayan de Oro City, Philippines*)

Computer Programmer

June 2014 - August 2018

- Maintained and enhanced the company's ERP system, reducing processing time and improving operational efficiency.
- Developed and deployed automated programs using C# to streamline transactions and reduce manual work.
- Created custom reports using SAP Crystal Reports to support data-driven decision-making.
- Managed SQL Server databases, ensuring data security, integrity, and backups.
- Collaborated with stakeholders and end-users to gather system requirements, resolve concerns, and optimize system functionality.
